Price: R255.00

Description
Pond Medic Algae Ban

200g Treats - 24 000L

DESTROYS & CONTROLS ALGAE,

GREEN WATER & BLANKET WEED

ALGAE BAN destroys & controls a wide variety of algae, green water & blanket weed in “live water environments”, like dams, ponds & water features.

Enzymes are added to boost the algae decaying process in water & filter also to prevent any ammonia build-up.

Harmless to most water plants, fish, invertebrates and birds. Do not overdose.

DOSAGE:

5gr/1 level spoon (Provided) per 600 litres. Mix powder into a bucket of pond water & spread evenly throughout the pond.

NB: – Pond must be well aerated!

– Dead algae will cause ammonia build-up.

CALCULATE VOLUME:

Length x Width x Depth of pond x 1000 = litres

CAUTION:

– Ensure pond is well aerated.

– Avoid eye contact & inhalation.

– Wash hands thoroughly after use.

– Keep away from other foods & water.

– Flush or vacuum pond to clear dead algae.

This product is formulated to help control algae growth. For best results, use in conjunction with a UV light — make sure the unit is functional and adequately rated for your pond size. Please note: as long as there is direct sunlight, some algae growth is inevitable.
