

Green Tiger Barb

Call for Price: 011 826 5887

Description

The Green Tiger Barb (*Puntius tetrazona*) is a captivating colour morph of the classic Tiger Barb, renowned for its shimmering green body and dynamic behavior. Originating from Southeast Asia, including regions like Indonesia, Borneo, and Sumatra.

In aquariums, Green Tiger Barbs are active swimmers that thrive in groups of 4/5 or more.

Adult Size: Up to 3 inches (7.5 cm).

Diet: Omnivorous – flake food, pellets, live/frozen foods, and blanched vegetables.
