4mm Airline Tubing T-piece

Availability: 50

Price: R4.00

Short Description
4mm T-piece connector for aquarium airline tubing. Sold individually; colour may vary.

Description
This 4mm aquarium airline T-piece connects three compatible tubing sections in a T-shaped junction. It can be used to branch a single air-pump line towards two air stones.

Product details

- **Type:** T-piece airline connector.
- **Listed tubing size:** 4mm.
- **Quantity:** sold individually.
- **Colour:** may vary.

Planning your connections

Check that the connector fits your tubing and that your air pump is suitable for the intended setup. This is a junction fitting, not an adjustable flow-control valve.

Contact Wazeer's Aquariums for help choosing tubing, connectors and flow-control accessories.
