Aquadine Aquarium Algae Block 20g

Availability: 10

Price: R60.00

Description

Aquadine Aquarium Algae Block 20g is a powerful and easy-to-use solution for controlling unwanted algae in freshwater aquariums. Simply place the block in your tank or in your filter and let it work over time to reduce algae buildup on glass, decorations, and substrates. Safe for fish and plants when used as directed, it helps maintain clear water and a healthier environment for your aquatic life.

This product is designed to manage algae growth. For best results, reduce the duration of your aquarium lighting.
