## Description

A Powerful Color Enhancing Daily Diet For Carnivorous Cichlids And Larger Tropical Fish Containing A Source Of Live (Viable) Naturally Occurring Microorganisms.

A daily diet for South American cichlids utilizing bio-technology for superior coloration. Great for larger tropical fish requiring higher protein levels. Research, exploration and breeding experience allows us to produce another world's first! Hikari Cichlid Bio-Gold+ is the result of a technological breakthrough allowing us to include probiotics—beneficial living microorganisms which provide many visible benefits. Daily feeding of Hikari Cichlid Bio-Gold+ insures your fish will receive maximum benefits from the Hikari Germ™ and loads of beneficial nutrition too!

## Features

Expect vivid and vibrant coloration, not possible with other diets, as a direct result of the high levels of easily synthesized Astaxanthin.Offering a super-charged nutrient mix plus beneficial living microorganisms that promote rapid, fat-deposit-free growth and desirable form!The use of premium-grade Fish Meal makes this perfect for omnivorous or carnivorous varieties. Contains specially formulated Garlic and DL-Methionine

making this diet one your pet will eagerly attack and devour.Developed, produced and packaged in our facilities so we can be assured you'll always get the Hikari® quality you expect!
