Description

A Scientific Diet For Most Tropical Fish Especially Tetras, Barbs, Cichlids and Catfishes

Hikari, the originator of wafer type diets, brings you another wafer packed with nutrition to help your fish live a long, healthy life and look their best. Specifically developed for use with all types of tropical fish from larger neon tetras to the largest angels. Accept no substitutes, request the unquestioned quality leader, Hikari.

FEATURES

- A community tank diet that allows feeding at all levels of the aquarium due to its unique floating then sinking characteristics.
- High grade marine and vegetable proteins promote ready acceptance, improved assimilation and superior nutrient utilization.
- Contains Spirulina and Astaxanthin to promote vivid coloration not possible with competing foods.
- Another Hikari® original, a miniature (micro) wafer developed specifically for most tropical fish to easily devour.
- Helps flake users to more readily monitor and adjust quantity fed to avoid overfeeding and water quality issues.
- Developed, produced and packaged in our facilities so we can be assured you'll always get the Hikari® quality you expect!
