Description

Ideal for Most Aquatic Turtles

Saki-Hikari® is synonymous with the world's highest quality and most efficient ornamental fish foods. Now your aquatic turtles can enjoy the same benefits koi, cichlid and goldfish keepers have come to love!

Kids love turtles, parents hate the smell and dirty water. Saki-Hikari® addresses these issues and lab-verified feeding trials confirm the odor-stop™ formula reduces unwanted odor while helping to maintain clearer and consistently better water (when used as directed).

The highly balanced nutrients and inclusion of the Hikari Germ™ support intestinal flora and immune system health.

FEATURES

- **Say Goodbye To Odor** - The highly tested and

uniquely blended ingredients, including specific herbs, help reduce odor while increasing feed efficiency, which translates to less waste.

- **The Hikari Germ™ Benefit** - These proprietary probiotics support intestinal flora and remain active in the waste to help decompose it making it less taxing on your bio-action. Expect improved water quality when used as directed.
- **Nutrition Specifically For Your Turtle** - Added calcium supports the development of the outer shell while vitamin D₃ improves calcium absorption. A uniquely balanced combination of nutritious ingredients aquatic turtles desire meaning no supplemental feedings are required.

Reduce Tank Odors

Comparison Test #1 showed a significant reduction in odor concentration for aquariums where Saki-Hikari® TURTLE was fed.

Cleaner Water

Comparison Test #2 uncovered a much lower turbidity of the water when Saki-Hikari® TURTLE was used versus competing products. Keeping turtles can be more enjoyable with less maintenance and clearer water if you make Saki-Hikari® TURTLE your first choice!
