Description

A Scientifically Developed Diet For All Types Of Marine Herbivores.

FEATURES

- Our technological expertise helped us develop the World's 1st wafers & pellets containing more than 67% natural seaweed!
- The highly aromatic wafers & pellets, which soften rapidly when put in water, instantly attracts herbivorous species. Best of all, the transition from Nori Algae is a snap.
- The outstanding nutrient mix offers rapid growth and

helps support immune system health while helping maintain coloration.
- Ideal upplemental diet for most omnivorous species, including clownfish, damsels and butterflies.
- Developed, produced and packaged in our facilities so we can be assured you'll always get the Hikari quality you expect!
