

Hikari Sinking Cichlid Excel 342g

Availability: 4

Price: R370.00

Description

Hikari Sinking Cichlid Excel 342g is specially formulated for herbivorous (plant eating) fish. This formula combines wheat-germ, spirulina and vitamins and minerals to provide a diet that is extremely nutritious, easy to digest, provides powerful color enhancement and promotes outstanding growth characteristics. This superior diet can be fed to African Cichlids and many types of plant eating tropical fish with excellent results!

A perfect balance of natural ingredients meant to meet the nutritional demands of most herbivorous fish, offering a taste even the most finicky eater will love.

Use of the inner most portion of the wheat-germ kernel offers more rapid digestion and beneficial natural nutrients your freshwater herbivore craves.

Contains pure-cultured Spirulina, offering vibrant, natural color-enhancing capacity.

Contains stabilized vitamin-C which won't degrade over time as easily as non-stabilized vitamin-C and supports a healthy immune system.

Trust the originator of premium aquatic diets when you're looking for the best!

When feeding Hikari Sinking Cichlid Excel 342g one should avoid over-feeding and always remove uneaten food after the feeding period to avoid impacting the water and causing quality issues.

Note: Sinking Cichlid Excel contains higher levels of natural ingredients which may cause a slight change in color from one production lot to another. Rest assured because of our rigid quality standards each package meets our superior nutritional specification.
