# Ista CO2 Disposable Diffuser Canister Set

**Availability:** 2

## Price: R215.00

**Description**

The Ista CO2 Disposable Diffuser Canister Set is a beginner and user-friendly solution for introducing CO2 into your planted aquarium. Designed for ease of use and efficiency, this kit is perfect for beginners.

The convenience of not having the hassle in refilling cylinders. Ideal for Nano Tanks. These sets can be easily adapted to any kind of tank, even plug and play tanks. Ideal for beginners, and low light tanks, with low demands for CO2. The CO2 is designed to last, if setup correctly. For low light tanks, the recommended rate is 1 bubble every 5 seconds. Place the CO2 diffuser to the very bottom of the tank to achieve the best CO2 diffusing effect.

CHARACTERISTICS:

A perfect CO2 supply for small planted aquarium or beginners.

Simple to set up and operate.

Extendable CO2 diffusing chamber provides options of CO2 supplying rate.

Included in set:

1 can full weight pressurized CO2 liquid

1 check valve

1 $CO_2$ diffuser

1 flexible tube

Important Notice:

Each can is 100% brand new and unused — we do not sell second-hand or previously used products.

Please ensure correct installation and usage. We will not be held responsible for misuse or incorrect handling that results in premature depletion of the gas.

No replacements will be issued once a new can has been shipped.
