Ista CO2 Disposable Supply Set 95g Basic

Availability: 2

Price: R1,400.00

Description

Ideal for Nano Tanks. These sets can be easily adapted to any kind of tank, even plug and play tanks. Ideal for beginners, and low light tanks, with low demands for CO2.

The Ista CO2 Disposable Supply Set 95g Basic is a convenient and efficient CO2 system designed for beginner and intermediate aquascapers. It provides a reliable source of carbon dioxide to promote healthy plant growth in freshwater planted aquariums. This user-friendly kit includes a 95g disposable CO2 cartridge, pressure regulator, bubble counter, and diffuser—everything you need to start CO2 injection with minimal setup.

Ideal for nano to mid-sized planted tanks, the Ista CO2 set ensures optimal photosynthesis, vibrant plant coloration, and improved overall plant health. No complex installation or refilling required—just plug and play.

CHARACTERISTICS?

Disposable CO2 cartridge makes it convenient in not having the hassle of refilling it.

Supporting rack included which provides elegance and easy installation.

Top quality CO2 pressure regulator provides easy, precise, constant and reliable CO2 supply.

Quality acrylic diffuser provides the best diffusing effect.

Mini UFO CO2 Diffuser. Acid and break resistant.
