

Ocean Nutrition Seaweed Select Green Marine Algae 12g

Price: R224.00

Description

Ocean Nutrition Green Marine Algae (12g) is a high-quality dried seaweed food source specially formulated for herbivorous marine fish such as tangs, surgeonfish, angelfish, and rabbitfish. Rich in essential vitamins, minerals, and natural nutrients, this algae promotes vibrant color, healthy digestion, and overall vitality.

The easy-to-use strips can be attached to a veggie clip or rubber-banded to a rock for natural grazing behavior. Ideal for daily feeding or as a supplement to a varied diet, Ocean Nutrition algae supports the long-term health and coloration of your marine fish.

- Premium green marine algae sheets
- Ideal for tangs, angelfish, rabbitfish & other herbivores
- Boosts colour, immunity & digestion
- Easy to feed – use with clip or rock
- Trusted by marine aquarists worldwide
