

Ocean Nutrition Seaweed Select Red Marine Algae 8g

Price: R182.00

Description

Ocean Nutrition Seaweed Selects Red Marine Algae (8g) is a premium dried seaweed food, expertly formulated for herbivorous marine fish such as tangs, surgeonfish, rabbitfish, and angelfish. This high-quality red algae is rich in vitamins, minerals, and natural color enhancers to support vibrant coloration, a strong immune system, and healthy digestion.

Easy to feed and highly palatable, the algae sheets can be attached to a veggie clip or rock, encouraging natural grazing behavior. Ideal for daily feeding or as a nutritious supplement to a varied marine diet.

- 100% natural red marine algae
- Enhances color, vitality, and digestive health
- Suitable for tangs, angelfish, rabbitfish & other marine herbivores
- Simple feeding with veggie clip or rock
- 8g pack – great for regular use in reef and marine aquariums
