Short Description
Pangasius Catfish/Albino Iridescent Shark Catfish

Description
The Albino Pangasius, also known as the Albino Iridescent Shark Catfish, is a stunning albino variant of the popular Pangasius species. With its graceful, torpedo-shaped body and pale white-pink coloring with red-tinted eyes, it’s a standout addition to any freshwater setup. Feeding is easy; they are omnivorous and thrive on high-quality pellets & frozen foods.
